*The listed performance data is an estimate only based on vessel testing on fresh water with 6 people, full fuel and water and a clean hull bottom. The performance will change based on boating location, vessel loading and maintenance.

Loads of glazing along the hull sides combine with massive windows on the main deck to create an airy and futuristic look.

An expansive sunpad makes for an intimate setting for catching some rays, while also acting as another alfresco entertainment space.

The 560 FLY first grabs the eye with lines that are both muscular and playful. A wide beam that carries well forward gives this vessel a substantial presence. It's a design choice that pulls double duty, allowing for unmatched interior volume, particularly on the accommodations level. But the 560 FLY has other attractive exterior aesthetics at play as well. This is a yacht with lines to remember.

Features abound. Fold-out Beach Mode balconies have glazing, so guests can see the water below their feet. A bar with three stools is to port, while there is an alfresco dining settee aft.

Note: Layout and features may vary from shown here due to manufacturer consideration and client customization.
